The committee is beginning to realize that it has undertaken a labor of mouths, perhaps years, and that the water question is one that cannot be settled in an hour. Mr. Over'on said it would take over eighteen mouths, but Mr. Hempton thought they might get pretty well acquainted with the subject in a year, as they had Hermany's report to go on. The committee, after hearing the city attorney's report, which is given in full elsewhere, thought they had better adjourn and read up Hermany before they tried anything else.

New York, August 11.—The attendance at Monmouth Park to day was large. Several showers during the day put the track in bad condition. The results on two of the races caused much dissatisfaction. In the last race adjourn and read up Hermany before they tried anything else. She was the favorite, and was beavil backed. The jockey was not punished.

In the fall of 1881 I was taken with a case of malarial fever, which prostrated me both body and mind. I was drugged after the old fashion with no good rearry sone. My legs and feet would swell, and I had what everybody thought was dropsy. These symptoms alarmed me, and I was drugged to grasp at any remedy suggested. A friend advised me to try Swiit's Specific. I procured three bottles and commenced its use. The swelling soon subsided. I have taken the three bottles, which have made a perfect cure, and i feel like a new man to-day. There never was a more meritorious medicine offered to suffering humanity. I has wrought wonders for me.
